1 Introduction

This document describes the sct option for the SVJOUR $\LaTeX$ document class. For details on manuscript handling and the review process we refer to the Instructions for authors in the printed journal. For style matters please consult previous issues of the journal.

2 Initializing the class

As explained in the main Users guide you can begin a document for Software Concepts & Tools by including

\documentclass[sct]{svjour}

as the first line in your text. All other options are also described in the main User guide.
